Final Revision For Toppers

3rd Sec.

Prepared by

Mr.Abdel Hameed Hamid

Preface

I present to you in this book, The Republic Educational Guide (Al-Gomhuria Educational) the final review that will set you on the right path—the path to excellence—in line with the learning outcomes and the exam paper specifications set by the Ministry of Education and Technical Education.

The book offers students a self-assessment approach that equips them with the targeted skills needed to achieve excellence and distinction, guided and facilitated by their teacher.

The book is uniquely designed to eliminate boredom, setting itself apart from all other review materials available in the market.

As always, our history is filled with pioneers, making us truly the closest to the exam every time.

Reading Comprehension

Read the following passage, then answer the questions:

An early version of the script for the upcoming Bond film was pirated by hackers as part of the cyberattack on Sony Pictures in November, 2014.
As well as the script, copious notes from executives, external were included about improving the film's ending.
Producers of the 'James Bond' films said they discovered that an early version of the "SPECTRE" script was among material stolen and made public by hackers who had infiltrated computers at the Sony studio.
"Eon Productions is concerned that third parties who have received the stolen screenplay may seek to publish it or its contents," Eon said in a statement, while warning that the script is protected by U.K. copyright laws.
Filming began just after producer Barbara Broccoli and director Sam Mendes had unveiled أماط اللثام عن the title, cast and new car, but little about the plot. "I was so excited to tell this story but to explain why, I would have to tell you the plot and I can't do that," said Mendes at the presentation in England.
The Bond franchise is one of the most lucrative for Sony Pictures and the last installment "Sky fall" brought in $1.1 billion worldwide, more than any other Bond film.
A Sony spokesman said news reports that the cyberattack forced the studio to stop production on films, including "SPECTRE," were wrong.
Hackers launched an attack on the Sony Corp. on Nov. 24th, disabling the computer network and stealing and leaking a trove of sensitive information in the most severe cyberattack on a company on U.S. soil. The identity of the hackers has yet to be determined. However, "SPECTRE," starring Daniel Craig as 007, was launched in Nov. 2015.

Reading Comprehension 2

Read the following passage, then answer the questions:

There are many dangers when driving a motor vehicle. From poor weather to poor road conditions, from distracted drivers to vehicles that malfunction, drivers must remain alert and aware every second. Unfortunately, there are some dangers that drivers cannot easily see coming. These dangers live in the blind spots. These dangers are not avoidable, but it is possible to reduce their risk.

A blind spot is any area that the driver of a vehicle cannot see when driving while they are looking straight ahead at the road or looking in their mirrors. If a driver must turn their head to see what is in a space, it is a blind spot. Every vehicle has inherent blind spots, mostly to the side rear of the vehicle. However, the size and shape of the vehicle determines the size, shape, and location of the vehicle's blind spots. The larger or higher off the ground a vehicle is, the larger its blind spots can be. Blind spots can be responsible for many types of accidents, for example, the driver may run over children, animals, or objects in the vehicle's rear blind spot or in front of the vehicle. But, thanks to the advanced technology, many vehicles are now equipped with a variety of collision-prevention technologies, such as lane departure warning systems and forward collision warning systems. For blind spots, there are blind spot warning systems and rear cross traffic warning systems, as well as blind spot intervention systems that apply the brakes when a vehicle is detected in the blind spot when a driver is changing lanes. Backup cameras can also assist with blind spots. This technology can be extremely effective. However, it does not replace driver awareness.

Reading Comprehension

Read the following passage, then answer the questions:

When she was very young, Helen Keller got very sick. For about a week, she had a terrible fever and headache. She survived, but she lost her sight and hearing at the same time. Her parents arranged for a teacher called Annie Sullivan. Annie used to attend the school when she was blind, but she got a special surgery when she was 15 and was able to see. Annie began to teach Helen words, and she had some special **tricks**.

Annie taught Helen how to read Braille – a special reading system for the blind – and the letters are made out of little bumps on a page that you can feel with your fingers. At that point, Helen was ready to learn how to speak, and Sarah Fuller helped her with this. As she spoke, Helen would place her hand on Sarah's lips. Instead of hearing the sound, she could feel the vibrations of the sound and felt how the lips moved to make specific sounds. With hard work and determination, Helen was able to speak.

Helen went to school and she did really well and graduated with honors. She then went on to college and wrote books about her unique experiences. As she grew older, she wanted to help others who had the same challenges. She spent her life raising money and awareness for the rights of women and people with disabilities. Helen Keller is a great example of someone who was always determined and never let obstacles get in her way.

Choose the best option from a, b, c or d:

1 The passages gives a brief history about ....

- ⓐ a lady who went blind and deaf at a very young age.
- ⓑ a system for reading that can help the blind.
- ⓒ a clever teacher who could help people with disabilities.
- ⓓ teaching techniques that are effective for the deaf.

2 According to the text, how did Helen Keller become blind and deaf?

- ⓐ She had an accident.
- ⓑ She became blind and deaf later in life due to old age.
- ⓒ She got seriously ill during her childhood.
- ⓓ She was naturally blind and deaf as well.

Reading Comprehension 2

Read the following passage, then answer the questions:

In 1984, Madonna could achieve a great success singing her hit 'Holiday'. Throughout her career, she has launched eighteen albums, including three collections of greatest **hits**. But, Madonna has not been immune to online piracy. In recent years, Madonna has tried to limit online piracy. Mixes of the title track of her 2000 album, Music, appeared on several file-sharing sites before the album was launched. Then in 2003, Madonna was set to release her new album, American Life. However, in an effort to prevent further piracy, Madonna and her record company decided to try a new **trick**. Decoy MP3 tracks from American Life were uploaded on file-sharing sites. These decoys were meant to discourage illegal downloading. People downloading the files thought they were getting tracks from American Life for free. However, when the files were played, all that people could hear was Madonna shouting offensive words. Although this strong approach definitely made a statement, it also provoked an immediate response. Soon after the decoy tracks were discovered, pirates hacked into the madonna.com website. They used the website to distribute free MP3 copies of her new album. Perhaps her plan did not work quite as expected. However, as Madonna knows well, controversy draws attention to her material. Whether or not such controversy has had any impact over the years, one thing is for sure: Madonna continues to have something to say.

Choose the best option from a, b, c or d:

1 **Which question does this passage raise?**

- (a) Why does Madonna give away her music?
- (b) How does Madonna control the distribution of her music?
- (c) What are Madonna's most popular songs?
- (d) How did Madonna deal with the problem of music piracy?

2 **Why did Madonna put fake files on the Internet?**

(a) To pursue her dreams of fame	(b) To take action against piracy
(c) To advertise her new CD	(d) To make a new album

The Novel: Great expectations

Answer the following questions:

1 **Joe was a person of a good attitude.**
Illustrate with examples.

2 **Mrs. Joe was very insistent that Pip must go to Miss Havisham's house.**
Do you agree? Clarify your answer.

3 **Pip describes the scene when his sister started to prepare him to go to Miss Havisham's house.**
Illustrate.

4 **How did Dickens succeed in delivering his message about Miss Havisham's house?**

5 **Pip was dressed in his best clothes, yet, when he arrived at Miss Havisham's house, the girl there (Estella) described him as 'a poor working boy'.**
Comment.

6 **"A broken heart!" she said. Then after a moment, she added, ' "I am tired, and I am bored. Play!"**
How do you think Pip perceived these sad words?

7 **Despite his young age, Pip had great expectations in life.**
Discuss.

Unit 3 Beyond imagination

Reading Comprehension

Read the following text then choose the correct answer:

Science is undergoing a great evolution, taking humanity to a new era: the era of nanotechnology. Nanotechnology deals with the physical, chemical, and biological properties of structures and their components at Nano scale dimensions. Nanotechnology tries to make materials or machines of that size.

People are using nanotechnology in various fields. At the "science fiction" field there are attempts to make small copies of bigger machines. At the medical sector, as well, we can see the remarkable use of nanotech; for example the dentistry field. Dental nanorobots are able to move through teeth and surrounding tissues by using specific movement mechanisms.

Trousers and socks have been infused with nanotechnology so that they will last longer and keep people cool in the summer. Bandages are being infused with silver nanoparticles to heal cuts faster.

On the one hand, nanotechnology may be able to invent new materials and instruments which would be very useful, such as in medicine, computers, and making green electricity is helping design the next generation of solar panels, and efficient low-energy lighting. On the other hand, it is new and there could be unpredictable problems. They may have a bad effect on the economy or even big natural systems like the Earth itself. On the whole, there should be rules about the use of nanotechnology.

Choose the best answer from a, b, c or d:

1 What is the main idea of this text?

- a) Solar panels are the future for energy.
- b) Nanotechnology is the future of technology.
- c) Kinds of technology over time.
- d) The ways we can cure teeth problems

2 The underlined word evolution refers to ....

Unit 3 Beyond imagination

Reading Comprehension 2

Read the following passage, then answer the questions:

Do you think that a robot can do the job of a doctor or a teacher? A robot can be a cleaner or factory worker, but some jobs need human connection and creativity. Anthony Seldon, an education expert, believes that robots will have replaced teachers by 2027. He predicts robots will do the main job and teachers will be assistants.

Intelligent robots will read students' faces, movements and maybe even brain signals, which will help <u>them</u> adapt the information to each student. It's not a popular opinion and it's unlikely robots will ever have empathy and the ability to really connect with humans like a human can.

One thing is certain, though. A robot teacher is better than no teacher at all. In some parts of the world, there aren't enough teachers. That problem could be partly solved by robots because they can teach anywhere and won't get stressed, or tired, or move somewhere for an easier, higher-paid job.

Those negative aspects of teaching are something everyone agrees on. Teachers all over the world are leaving because it is a difficult job and they feel overworked. Perhaps the question is not 'Will robots replace teachers?' but 'How can robots help teachers?' Office workers can use software to do things like organise and answer emails, arrange meetings and update calendars. Teachers waste a lot of time doing non-teaching work, including more than 11 hours a week marking homework. If robots could cut the time teachers spend marking homework and writing reports, teachers would have more time and energy for the parts of the job humans do best.

Choose the best answer from a, b, c or d:

1 According to the text, which statement is TRUE?

a) Robots will inevitably replace teachers by 2027.
b) A robot teacher is better than any teacher.
c) Robot teachers need to rest.
d) Robot teachers don't need to rest

2 The underlined pronoun <u>them</u> refers to the ....

a) robots
b) teachers
c) signals
d) students

The Novel: Great expectations

1 **'I have to tell you that Pip has great expectations.'**

Comment.

2 **'He will receive a large amount of property in future, so now he must have an education.'**

Why must Pip have a good education if he is to receive that large amount of property?

3 **Mr. Jaggers gave Pip a large sum of money to buy new clothes.**

Why?

4 **'Pip is welcome to go and find his fortune. Money makes no difference to my feelings for him.**

What does this tell us about Joe's character.

5 **I decided that when I had bought my new clothes, I would put them on at Uncle Pumblechook's house.**

- Comment.

6 **Pip had a little dark side inside himself.**

Give an example.

7 **When I said goodbye to Biddy, I asked if she could teach Joe to speak better, but to my surprise she refused.**

Comment

8 **Do you agree with Pip that education can change lives?**

Why?

9 **Would you leave your friends and family behind to move to a big city to get a better education?**

Why?

10 **Do you think Pip does the right thing when he goes to London?**

Why?

Reading Comprehension

Read the following passage, then answer the questions:

As has been the case for many years, jobs, or forms of employment wherein employees perform a service or duty in exchange for financial compensation, play a prominent role in society. Furthermore, all jobs—even those of seemingly little significance—are important, as they simply wouldn't exist if their specific responsibilities weren't of value to employers, customers, and the economy generally.

Teachers help students understand certain subjects. In short, teachers help their students to become qualified for their future careers.

It's the responsibility of doctors to help patients and recommend an effective treatment to a disease, disorder, or any health condition.

Additionally, nurses are medical professionals who help to administer doctor-ordered treatments to patients.

Police officers are law enforcement professionals whose job is to protect citizens, solve crimes, and assure that rules and regulations are followed. Similarly, firefighters serve the public by responding to fires (and other emergency situations) and using high-tech equipment to extinguish these fires, while bringing any individuals who're in danger to safety.

Farmers maintain fields of variety of crops and collections of animals with the intention of selling these products as food.

Chefs prepare meals in restaurants, cafeterias, and other venues wherein food and drink are sold, for customers. Chefs are generally experienced in cooking and managing kitchens. Waiters bring menus, meals, and ultimately, the check.

Artists produce art, or works of creative significance, including music, paintings, drawings, poetry, writing, and more. To conclude, all jobs are important to human beings.

Reading Comprehension

Read the following passage, then answer the questions:

I was going to start learning how to be a programmer two years ago. At first, I didn't know anything about it. At that time, I was working as a sales expert in a big company. As a result, I didn›t have enough time but I decided to start learning for 30 minutes in the morning.

In the beginning, I would take a lot of time to understand the concepts. Sometimes, it was so frustrating because I would spend a lot of time trying to understand a concept but after a week I would really forget the details. As it turned out, I found out I had to take notes and make a plan to review them every two days.

Another problem was that I was short of time. But I would use all of my free time including weekends and my two days off in a month. But a situation came up to me caused me to have two hours of free time a day at work. This was a gift for me for my passion and persistence. I continued this trend for nine months. My mind had become sharper and faster in learning and analyzing new concepts.

As I had fallen in love with this new skill, I decided to quit my job and focus on programming. This decision improved my efficiency and made me use my intellectual abilities to the maximum. I allowed myself to do what makes me happy.

Choose the best answer from a, b, c or d:

1 **The passage mainly ....**

a	discusses the best way to manage time
b	reviews the best qualities of a salesperson
c	tells the reader about the writer's experience to learn programming
d	gives the reader advice on how to be a programmer

2 **The underlined word frustrating is similar to ....**

a	disappointing	b	disappearing	c	disconnecting	d	disordered

4 **The underlined pronoun <u>This</u> refers to ....**

a	the problem of being short of time
b	having two hours of free time a day at work
c	taking a lot of time to understand the concepts
d	the gift that someone had given him for the good work

5 **According to the passage, the writer has a .... job.**

a	part-time	b	temporary	c	freelance	d	full-time

6 **How long did the writer take to improve in programming?**

a	A whole year	b	More than a year
c	Less than a year	d	A year and a half

7 **What decision did the writer take that helped raise his effectiveness?**

a	Quitting his current job	b	Learning programming
c	Analyzing new concepts	d	Using his intellectual abilities

8 **After reading the text, we learn that the writer ....**

a	loved being a salesperson very much.
b	developed a strong interest in programming.
c	was very keen on making profits from his job.
d	was compelled to quit his current job.

The meaning of success

The Novel:
Great expectations

1 **"He told me that he was Miss Havisham's gatekeeper now."**

- Why did Pip feel worried when he knew that?

2 **"The ones you had in the village wouldn't be good enough now, would they?"**

– Comment.

3 **"But, you know, I have no heart; I am neither kind nor good!"**

– Comment.

4 **"If she is cruel, love her! If she breaks your heart, love her!"**

5 **"It is giving your heart to someone completely – just as I did!"**

- Comment.

6 **I was now sure that Miss Havisham wanted me to marry Estella.**

- What made Pip think so?

7 **"I did not speak to any of them,"**

– Why, do you think Pip did not speak to the people in the village although he knew some of them?

8 **Pip sent a present to Joe before left.**

- Why do you think he did so?

9 **"I adored her before, but I adore her twice as much now!" – Comment.**

- What made Pip think so?

10 **'You should try to forget her!'**

- What does the speaker mean by saying this?

Unit 8 Work Experience

Reading Comprehension

Read the following passage, then answer the questions:

I have recently completed a 16-week part-time accounting course. The course covered book-keeping, recording income and receipts and basic costing. I could pick up the accounting skills easily. I was able to work alone with very little extra help. I passed the course with merit.

I believe my success was due to my thorough work, my numeracy skills and my attention to detail. During the course, I had experience of working to deadlines and working under pressure. Although this was sometimes stressful, I always completed my work on time.

Unfortunately, the course did not include a work placement, so I have not practised my skills in a business setting, and I am now looking for an opportunity to do so. I am particularly looking for a job in a small company such as yours, as I believe I will be able to interact with a wider range of people, and as a result, learn more skills. I would like to progress within a company and gain more responsibilities over the years.

Although I do not have work experience in finance, I have experience in working in an office environment. Before starting the accounting course, I worked for 6 months in a recruitment office as a receptionist. My duties involved meeting and greeting clients and visitors and taking phone calls. I also had to keep the petty cash and mail records. Through this work, I developed my verbal and written communication skills. I had to speak confidently to strangers and deliver clear messages. I enjoyed working in a team. I believe the office appreciated my friendly manner and efficient work.

Reading Comprehension

Read the following passage, then answer the questions:

I personally needed a change after more than 25 years working in big organizations and was keen to find a better balance between work and home life. In my quest to find an alternative that would give me a greater feeling of purpose, I worked with some fabulous coaches. I realized that the need to change this is a common feeling for many others who may be feeling burned out or disillusioned or who know they have more to offer the world – all while balancing family life and wanting to contribute to their community. This has become more intense as we have navigated the additional pressures of the pandemic.

During this time, I've come to appreciate how personal well-being and professional fulfillment are deeply interconnected. It's not just about career success, but about aligning one's values with their work, nurturing meaningful relationships, and caring for oneself in the process. In this journey, I have also been working with leaders, entrepreneurs, and teams in start-ups and more established businesses. It's so rewarding seeing people rediscover their 'why' and reevaluate how they work so that they can improve performance and company well-being, making for a happier and more successful workplace. Helping individuals and organizations build healthier, more sustainable work cultures is something that has become a passion of mine. Ultimately, my goal is to guide others toward a sense of fulfillment that integrates both personal and professional life, creating environments where people thrive on their own terms.

Choose the best answer from a, b, c or d:

1. What was the primary reason for the author seeking a change after working in big organizations for 25 years?

Reading Comprehension

Read the following passage, then answer the questions:

Khan el-Khalili is one of Cairo›s most famous bazaars and a must-visit destination for both tourists and locals. Located in the heart of Islamic Cairo, this vibrant market has been around for centuries, dating back to the 14th century. It was originally built by the Mamluks as a trading center for spices, textiles, and other luxury goods. Over time, Khan el-Khalili evolved into a sprawling marketplace that offers a wide range of products, from traditional Egyptian souvenirs and handmade crafts to jewelry, spices, and perfumes.

The market is a maze of narrow streets and alleys, with colorful stalls and shops lining both sides. Visitors can enjoy bargaining with shopkeepers for unique items such as intricately designed copperware, silver jewelry, and beautiful textiles. The atmosphere is lively, with the sounds of haggling and the smell of fresh spices filling the air. It is also a place where visitors can learn about Egyptian culture and craftsmanship through the many artisans who work in the area.

In addition to the shops, Khan el-Khalili is home to several traditional cafes where visitors can relax and enjoy a cup of Egyptian tea or coffee. The market's historical significance and cultural richness make it an unforgettable part of any visit to Cairo.

Choose the best answer from a, b, c or d:

1 What is Khan el-Khalili known for?

- a) Its ancient pyramids
- b) Its vibrant marketplace
- c) Its modern shopping malls
- d) Its large museums

2 Which word is a synonym for «vibrant» in the first paragraph?

a) Dull	b) Quiet

Reading Comprehension

Read the following passage, then answer the questions:

Cultural diversity is what makes our world rich, colorful, and interesting. Every culture has unique traditions, beliefs, and ways of life that shape its people and history. Respecting cultural diversity means accepting differences and appreciating the value they bring to society.

When people from different backgrounds interact, they exchange ideas, languages, and customs, which can lead to innovation and deeper understanding. In a multicultural society, respecting diversity helps create harmony, reduces discrimination, and promotes peace. If people fail to respect cultural differences, misunderstandings and conflicts may arise.

One way to respect cultural diversity is by learning about other cultures. This can be done through travel, books, festivals, and conversations with people from different backgrounds. Being open-minded allows us to embrace different perspectives without judgment.

Language is also an important part of culture. Even if we don't speak another language fluently, making an effort to learn simple words shows respect. Additionally, respecting cultural diversity means avoiding stereotypes and treating people as individuals rather than making assumptions based on their background.

In schools and workplaces, cultural diversity should be celebrated. Policies that support inclusivity and equal opportunities help build a society where everyone feels valued. When people respect each other's traditions, they create stronger communities.

By respecting cultural diversity, we contribute to a more understanding and accepting world. Instead of fearing differences, we should see them as opportunities to learn and grow.

Choose the best answer from a, b, c or d:

1. Which statement best represents the main idea of the passage?

a	Cultural diversity should be respected because it promotes understanding and unity.
b	People should avoid interacting with other cultures to prevent conflicts.
c	Cultural diversity creates unnecessary differences in society.
d	Learning about different cultures is not important in today's world.

Unit 12 Myths and fables

Reading Comprehension

Read the following passage, then answer the questions:

One winter, deep in the forest, a clever fox found himself wandering near a frozen river. The ice sparkled under the moonlight, and on the other side, he spotted a plump hare, shivering in the cold. The fox, hungry and cunning, saw his opportunity.

"My dear friend," the fox called out, "I have found a hidden passage under the ice! If you follow me, you will find plenty of food."

The hare hesitated, but hunger gnawed at his belly. "How do I know you're telling the truth?" he asked.

The fox sighed. "You have my word. Trust me, and you will be rewarded."

Desperate, the hare stepped onto the ice. But as he reached the middle, a loud crack echoed through the night. The ice split beneath him, and with a frightened cry, the hare plunged into the freezing water. The fox, watching from the shore, chuckled. "Foolish hare," he murmured, "never trust sweet words without proof."

Shivering, he turned away. But as he took his next step, the thin ice beneath him shattered, and he too was swallowed by the river's icy grip.

The wind whispered through the trees, carrying a final lesson: Deception may trap others, but it often traps the deceiver as well.

Choose the best answer from a, b, c or d:

1. What is the main idea of the fable?

(a) Always help those in need.	(b) Deception can harm both the deceiver and the victim.
(c) Hares should never cross frozen rivers.	(d) Trusting strangers leads to rewards.

2. What is the synonym of «cunning» as used in the passage?

(a) Deceptive	(b) Honest	(c) Weak	(d) Kind

3. What is the best summary of the last paragraph?

(a) The wind blew through the trees as the fox escaped unharmed.	(b) The fox saved the hare at the last moment.
(c) The hare learned to swim and reached safety.	(d) The fox fell into his own trap, showing that trickery leads to one's downfall.

4. Which of the following best describes the fox's characte'r?

(a) Clever but deceitful	(b) Generous and kind	(c) Honest and loyal	(d) Foolish and timid
